Advantages of a PM Service Agreement **with airandvac.com**

Regular maintenance service on your source equipment

- Choose quarterly, semi-annual or annual service packages, depending upon your equipment, application and usage factors
- Always meets or exceeds equipment manufacturer recommendations
- Meets or exceeds NFPA 99 and other regulatory recommendations
- Complies with Joint Commission (formerly JCAHO) requirements
- Preserves existing equipment warranties

Saves you \$25 or more per hour on labor (during the active agreement period)

- Applies to your PM Service Agreement
- Applies to all other service visits, trouble and emergency calls
- Also applies to repairs, rebuilds, other shop and bench labor

Priority service scheduling

- Includes priority scheduling on trouble and emergency service calls

Top notch service

- From our team of credentialed, experienced, source equipment Service Specialists

We provide maintenance paperwork on every service visit

- For your facility maintenance files
- Paperwork is designed for third party regulatory inspections

We store “frequently used items” that may be particular to your equipment

- Could save hundreds of dollars in the case of an emergency

Priority Access to our NFPA99 Rental Fleet

- Save 20% on rental fees for any needed rental package - for the duration of the rental

Source Equipment is our Specialty

- Our Service Specialists have in-depth knowledge of your equipment
- We keep your equipment happy so it runs better and lasts longer!

Free Troubleshooting/Technical Phone Support

- Could get you out of a critical spot and get you back on line quickly
- Knowing your equipment makes it possible to help over the phone and may minimize expensive emergency visits, trouble calls and costly down time
